

08/25/2013

Dear Valued Prime Guard Filter Customers,

OE car manufacturers are adopting oil filter size standardizations; these include height and diameter reductions while still meeting the desired fit, function, and performance specifications of the original oil filter and its OE specifications.

This slight reduction of size on some oil filters, while still meeting all OE specifications, is achieved with an improved quality filter media. This improved filter media enhances the filters ability to secure and retain all the contaminants it is likely to experience during its service life.

**Our newly designed consolidated Prime Guard Oil Filters with improved filter media benefits are:**

- Fewer stocking part numbers with additional coverage
- Simplification of the filter line
- Inventory cost savings
- Space savings

**Below is a running change explanation:**

Prime Guard is in the process of consolidating part numbers that other manufactures have implemented. All consolidated filters have been re-engineered to meet OE specifications in form, fit and function. Prime Guard has identified all new filters boxes with a round yellow dot on the outside of the case. You will begin to see these cases ship once we have sold through all our existing stock. The only part number with significant physical differences is the POF1A. You will note the new diameter and height difference in the guide below. All other original numbers have very similar physical characteristics as the superseded part numbers; the only difference being the improvements that support the consolidation.

As we sell through our existing inventory these part numbers will be substituted automatically.

Changes you will see

<b>Diameter Reduction</b>					
Current Part#	New Part#	Current Diameter	New Diameter	Current Height	New Height
POF1A	PH1A (No Change)	3.66"	2.89"	4.52"	4.70"

<b>Part# Consolidation</b>					
Current Part#	New Part#	Current Diameter	New Diameter	Current Height	New Height
POF4610	POF4612	2.61"	2.68"	3.32"	2.97"
POF4459	POF4612	3.15"	2.68"	3.15"	2.97"
POF4460	POF4612	3.15"	2.68"	3.15"	2.97"
POF4477	POF4476	2.58"	2.57"	3.43"	2.98"
POF4670	POF195	3.625"	2.93"	3.18"	3.81"
POF5230	POF195	3.00"	2.93"	4.74"	3.81"
POF4651	POF2500	3.625"	2.93"	3.17"	4.00"
POF4466	POF252	3.00"	3.93"	4.74"	4.09"
