Subject: L36296, PH6296, V6296 Cartridge Filter – For popular Chrysler, Dodge, Jeep
Applications: Installation Instructions

Dear Valued Customer,

We have recently received questions regarding the design of the following cartridge filter: L36296 / PH6296 / V6296. As seen from the photos below, the stem may be a different shape from the filter removed from the vehicle. While the appearance is slightly different, the fit and functionality are the same and delivers the same performance to meet OE requirements.

Some Stem Styles | Our Stem Style

To ensure proper installation of the filter, simply follow the instructions below:

Install element in the housing

Tighten the endcap normally

As with all cartridge installations, the endcap and o-ring should be fully seated and checked for leaks before operation
